

ASX Announcement

10 February 2010

SUNCORP MARKET UPDATE

Suncorp today said its preliminary expected results for the half year to 31 December 2009 would be above the prior comparative period¹. Net profit after tax (NPAT) is expected to be between \$355 million and \$375 million.

The improved result is primarily due to a strong contribution from the General Insurance business which has benefited from more favourable weather conditions and enhanced returns from the investment portfolios.

The expected result remains subject to completion of the financial accounts and final review by the Suncorp Board and external auditors. Detailed results for the half year to 31 December 2009 will be presented on 24 February 2010.
