TROPICAL CYCLONE MARCIA

Suncorp Group Limited (Suncorp) advised that it is preparing to deploy its major claims event capabilities to manage anticipated claims from Tropical Cyclone Marcia.

The Group's insurance brands - which include Suncorp, AAMI, Apia, GIO and Vero – have put the additional measures in place to help process claims as quickly as possible.

Suncorp has a comprehensive reinsurance program to limit the financial impact of natural hazard events. In addition, the Queensland home portfolio is covered by a 30% proportional quota share arrangement. These reinsurance covers will limit the financial impact of this event to a maximum of \$200 million (pre-tax).
